Advice!

The Lakes

Lofquist, Deer and No Good Lakes are all stocked with Nipigon strain Brook Trout. Lofquist is accessible through a small municipal park located on the Lofquist Lake Road.

Lofquist Lake has a gravel Beach with ample parking and a floating dock for swimmers. A porta-potty and changing rooms are also available. Lofquist is protected by steep cliffs so calm canoeing and kayaking is possible via the gravel beach. Lofquist also holds a small population of Walleye.

Deer lake is accessible by road/trail past all the private camps on Deer Lake.

No Good Lake is accessible via bad trail and snow machine in winter.

Deer Lake Mountain Trail

The Trail is accessed via the trailhead 3.3km from highway 11 on highway 585 (Cameron Falls Road) - turn north at the Petro Canada station, then just a short distance past the landfill / Lofquist Lake Road on the left.

A three to five-hour hike of moderate to hard difficulty rewarded with stunning views of the local lakes as well as Doghead Mountain, Lake Helen, the new bridge, Kama and the Nipigon Bay/Lake Superior.

Multiple look offs atop rocky cliffs dot the trail.

Access

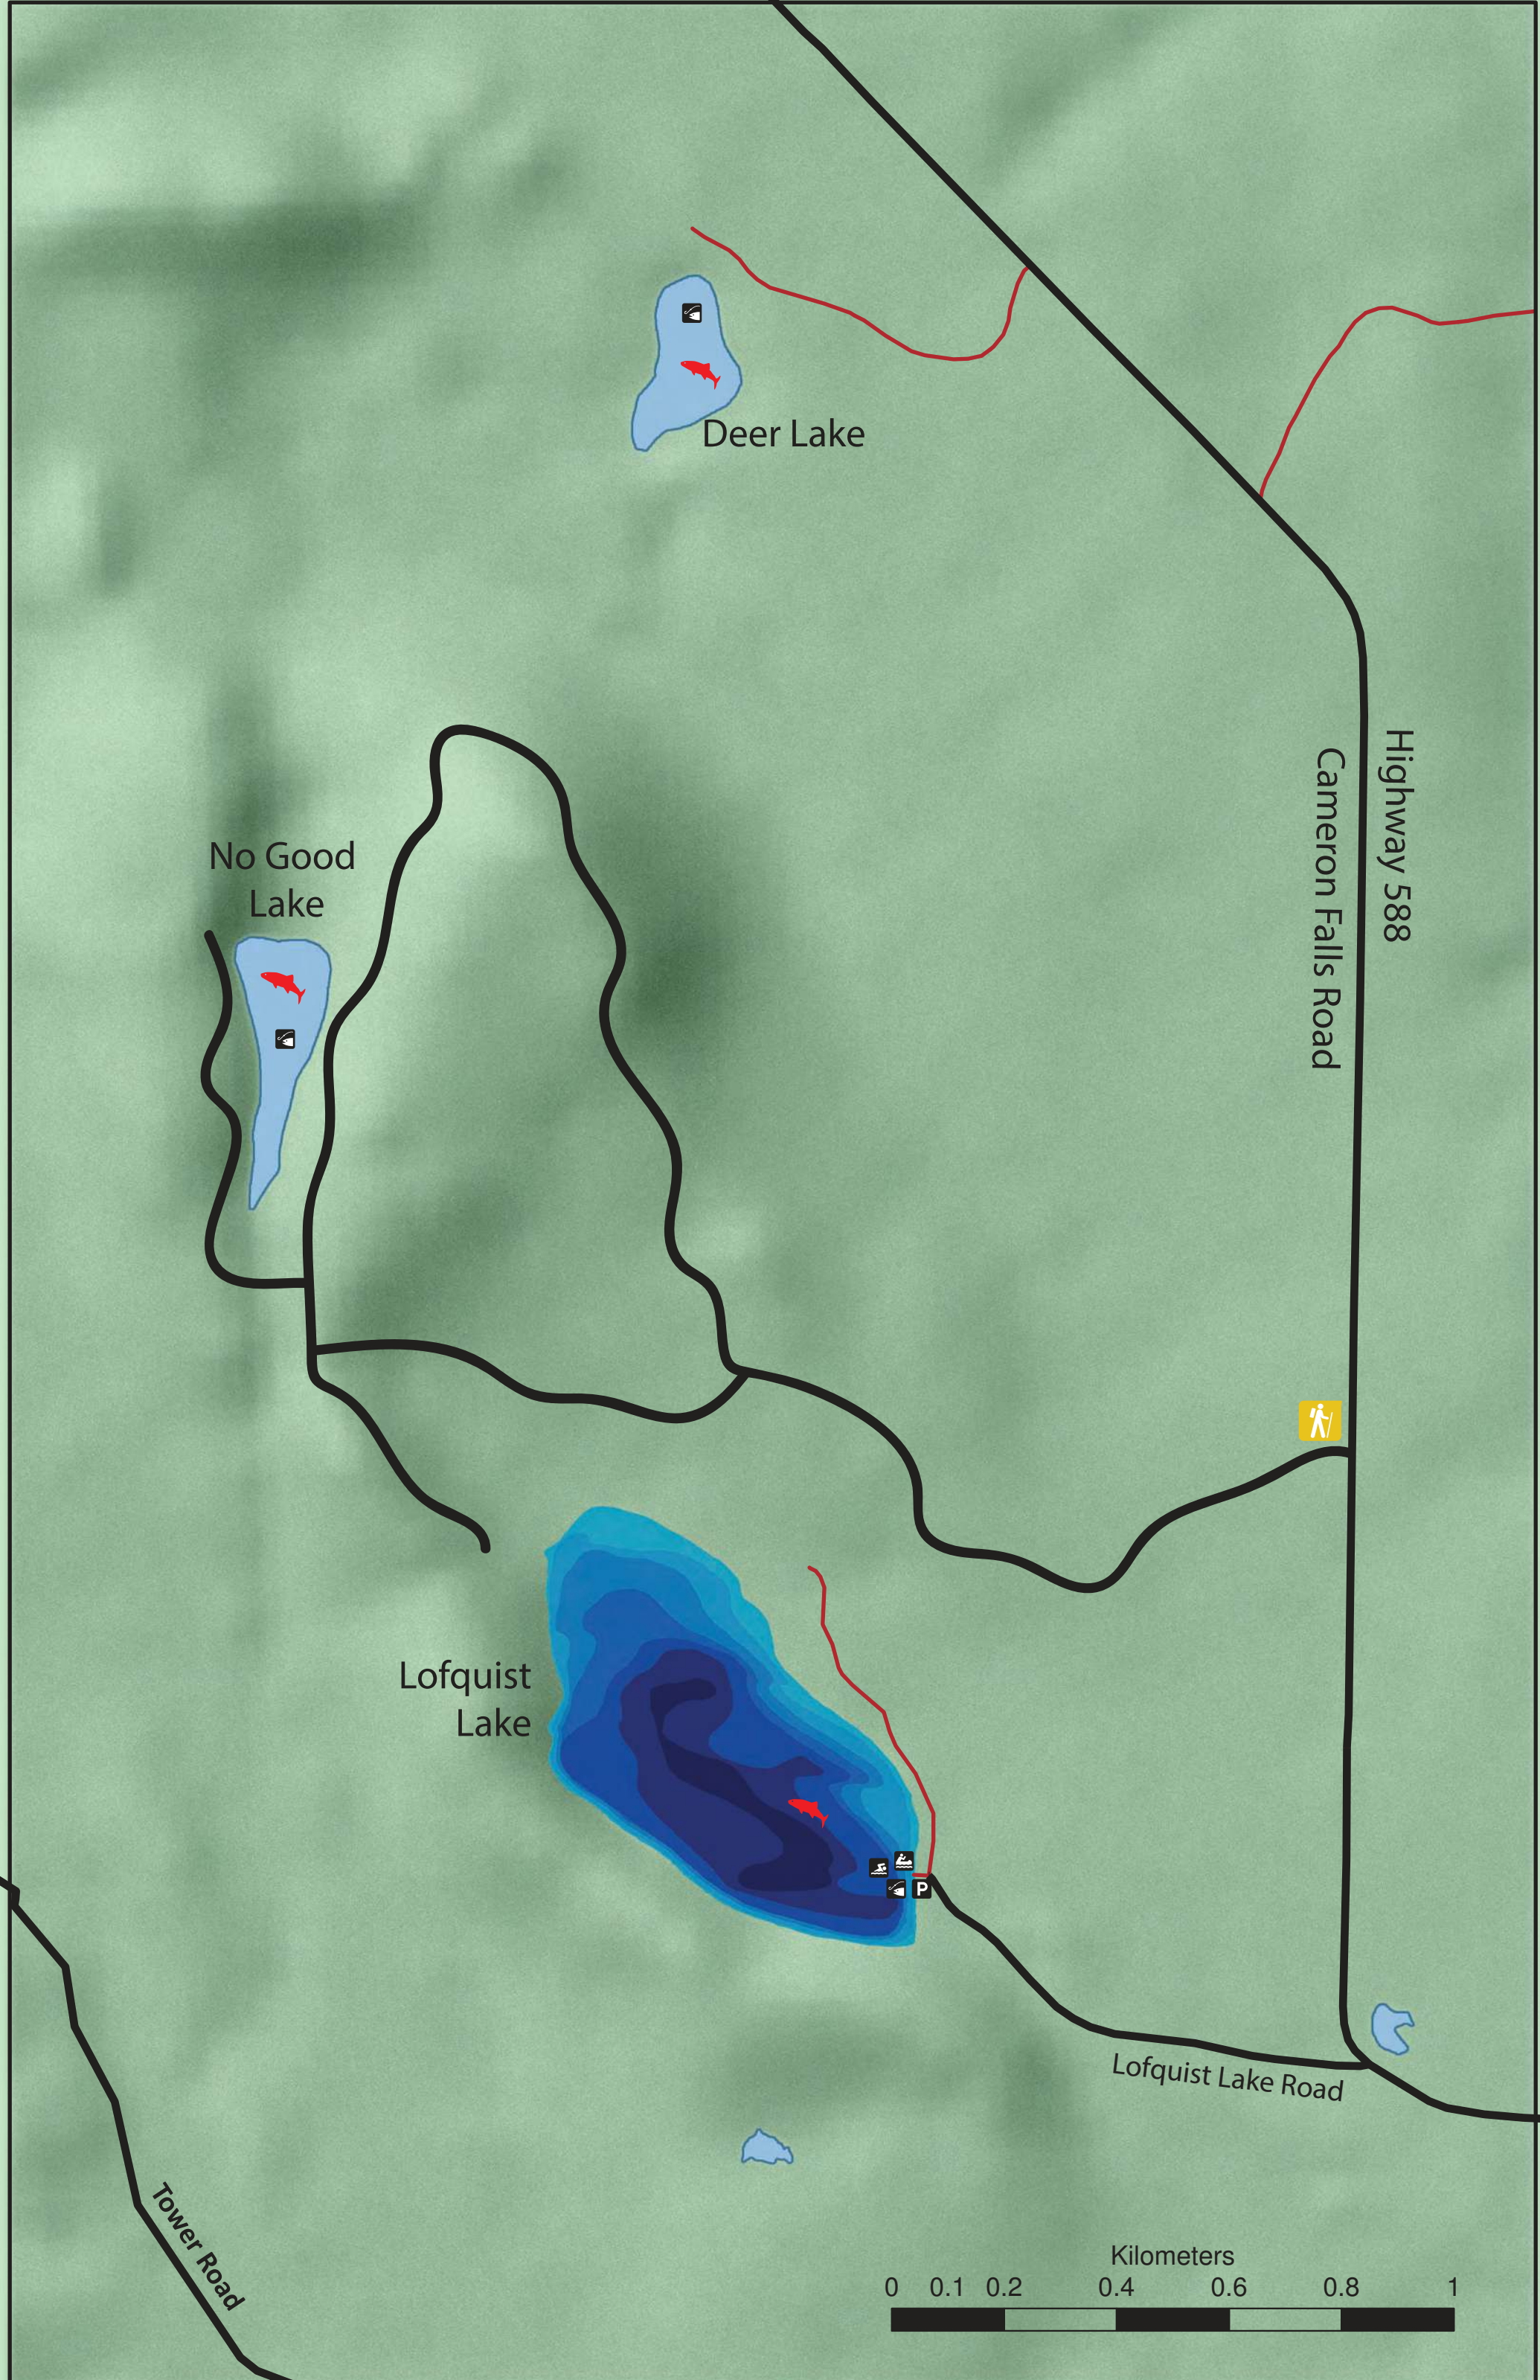

Access is via highway 588 (Cameron Falls road). Turn north at Petrocanada on Highway 11/17 in Nipigon. Lofquist road is 2.4 km in on the left. The Trailhead for Deer lake mountain trail is another 1km along Cameron Falls Road on the west side of the road. Deer Lake Road is 2.4km farther north on Cameron Falls Road (to the west).

Stocking History: Stocked with Nipigon Strain Brook Trout
